

SAMEER MAZHAR

Full Stack Developer | Python | Flask | JavaScript | React

Sambrial, Pakistan | +92 309 183 5466 | sameermazhar41@gmail.com | linkedin.com/in/sameermazhar834

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2+ years of experience designing, developing, and deploying scalable web applications, eCommerce platforms, and AI-integrated SaaS solutions. Proficient in Python, Flask, JavaScript, React, Firebase, and Tailwind CSS. Proven ability to lead cross-functional development teams, manage end-to-end project delivery, and optimize application performance. Currently pursuing BS in Information Technology at Virtual University of Pakistan. Actively seeking full-time Full Stack or Backend Developer roles.

WORK EXPERIENCE

Full Stack Python Developer | Highfive Electronics Pvt. Ltd. | Islamabad, Pakistan | *January 2025 – Sept 2026*

- Spearhead full-stack development of responsive web applications using Python (Flask), Firebase, HTML5, CSS3, Tailwind CSS, and JavaScript, achieving 40% faster page load times through performance optimization
- Manage end-to-end delivery of 25+ concurrent projects from requirements analysis through production deployment, maintaining 100% on-time delivery rate
- Architected and optimized eCommerce platforms with Stripe payment gateway integration, reducing database query times by 60% and improving conversion rates by 25% through enhanced UI/UX

Web Development Intern | Highfive Electronics | Islamabad, Pakistan | *October 2024 – December 2024*

- Developed and tested responsive frontend components using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility across 5+ major browsers
- Collaborated with senior developers on Python-Flask backend integrations and Firebase Realtime Database implementations

Web Development Intern | Ai Sanctuary | Islamabad, Pakistan | *May 2024 – July 2024*

- Delivered responsive websites using HTML5, CSS3, and JavaScript, adhering to mobile-first design principles and accessibility standards
- Implemented RESTful API integrations and database connectivity solutions using SQL and Firebase

KEY PROJECTS

AI-Based eCommerce Store — *Python, Flask, Firebase, JavaScript*

- Built an intelligent recommendation engine using collaborative filtering algorithms, increasing user engagement by 35%
- Automated inventory management system with predictive analytics for real-time stock optimization
- Developed real-time analytics dashboard for business intelligence and KPI tracking

Cash & Carry POS & Management System — *HTML, CSS, JavaScript, Python, Flask, Firebase*

- Developed a complete POS and management system for a Cash & Carry Mart, covering sales, inventory, products, customers, and transaction management
- Implemented billing, stock management, product tracking, and automated receipt generation to streamline daily store operations
- Built an intuitive dashboard for monitoring sales, inventory, and business performance with a focus on efficient retail management

AI Lead Finder & Email Campaign SaaS — *Python, Flask, JavaScript, Firebase, Google Maps, Yagmail*

- Developed a SaaS-based lead generation platform that extracts business data from Google Maps and organizes leads into structured Excel files

- Implemented automated email campaign functionality using Yagmail, enabling users to send personalized bulk emails directly from the platform
- Built lead management and export features to help businesses discover, organize, and engage potential customers efficiently

Fleet Management System — *Python, Flask, SQL, Firebase, REST APIs, GPS Integration*

- Architected multi-tenant SaaS platform supporting 100+ concurrent users for real-time vehicle tracking and scheduling
- Implemented GPS integration, automated reporting, and operational analytics dashboard
- Reduced fleet operational costs by 20% through optimized routing algorithms and predictive maintenance alerts

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), HTML5, CSS3 ,React ,
Frameworks & Libraries: Flask, Django, React.js, Tailwind CSS, Bootstrap
Databases & Cloud: Firebase Realtime Database, SQL, SQLite,Mongodb
Architecture: SaaS Architecture, Responsive Design, Mobile-First Development, UI/UX Optimization

EDUCATION

Bachelor of Science in Information Technology (BS IT) Virtual University of Pakistan Islamabad, Pakistan	2022 – 2026
Intermediate (ICS — Intermediate in Computer Science) Punjab Group of Colleges Gujranwala, Pakistan	2019 – 2021

CERTIFICATIONS

- **Oracle Cloud Infrastructure (OCI) 2025 AI Foundations Associate** — Oracle University
- **Business Communication & AI for Professionals** — LUMS
- **AI Fundamentals with IBM SkillsBuild** — IBM / Cisco
- **Introduction to Modern AI** — Cisco
- **Python Essentials 1** — Cisco / Python Institute

LEADERSHIP & ADDITIONAL IMPACT

- Led development teams of 4–6 engineers in delivering complex full-stack solutions on schedule and within scope
- Mentored 3 junior developers in modern web development best practices, code review standards, and Agile workflows
- Improved team productivity by 30% through implementation of structured code review processes and documentation standards
- Consistently delivered client projects with 100% on-time rate across multiple concurrent engagements
